

RUBBER ANTIOXIDANT 6PPD

中国石化
SINOPEC

INTRODUCTION

Rubber Antioxidant 6PPD is a high-efficiency, low-toxicity, solvent-resistant rubber antioxidant.

APPLICATION

Rubber Antioxidant 6PPD can be used as a stabilizer for synthetic rubber, widely applied in various rubber products and general rubber industrial products.

SPECIFICATION

Items	Specification	Test Method
Crystallizing point °C≥	45.5	GB/T 11409-2008 3
Loss of heating (70°C±2°C)%≤	0.50	GB/T 11409-2008 3
Ash content (750°C±25°C)%≤	0.10	GB/T 11409-2008 3
Purity (GC method) %≥	97.0	GB/T 21841-2019 4
